DELIGHT IN MEMORIES OF THE BEACH LONG AFTER YOUR VACATION ENDS WITH OCEAN-INSPIRED DECOR.

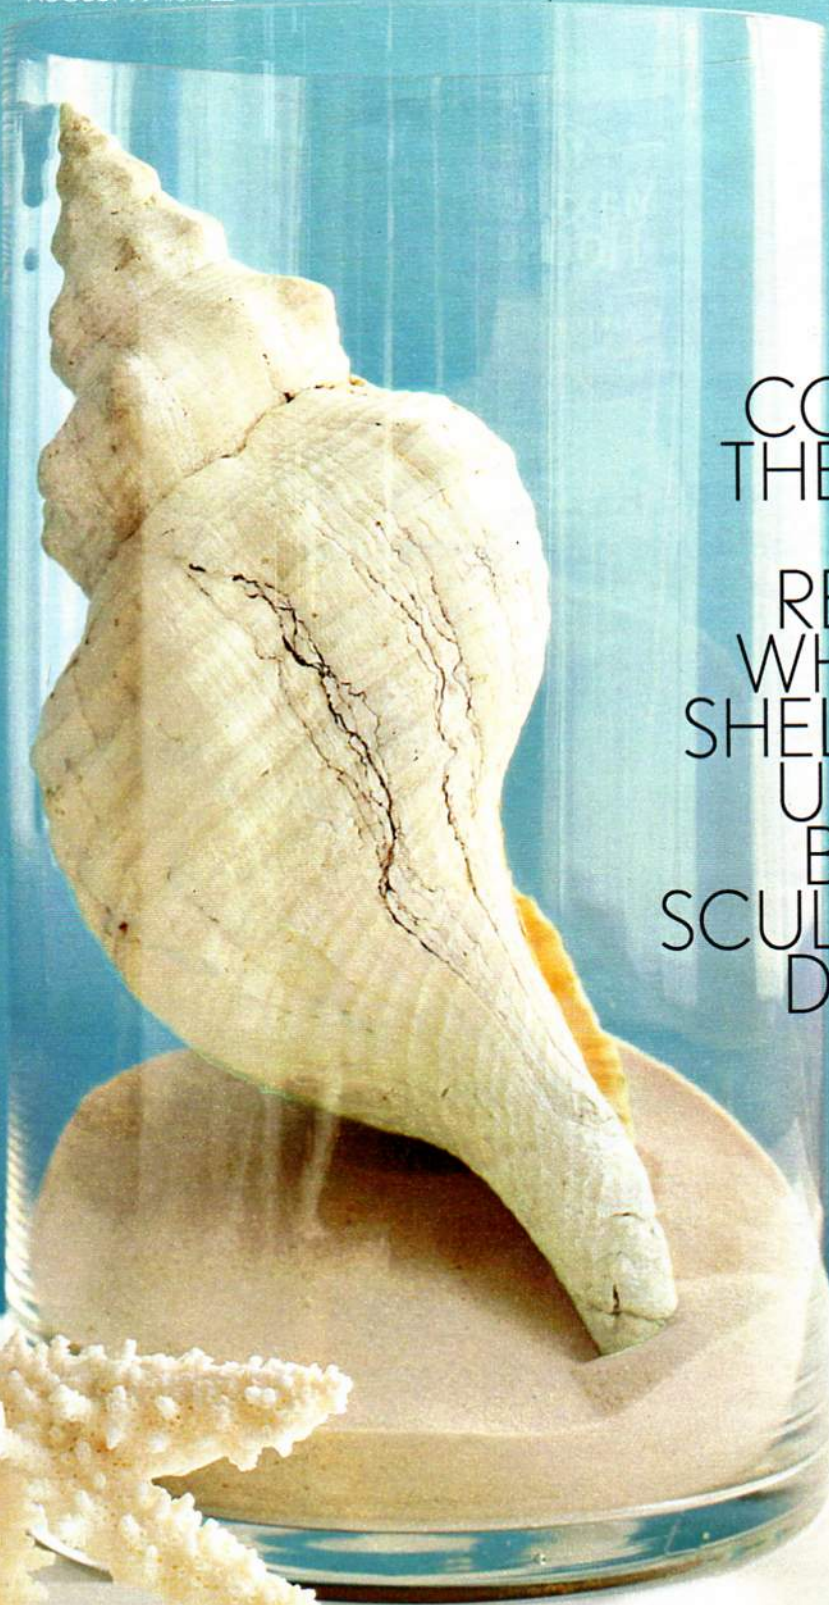

REMEMBER WHEN Relive vacation memories when you snuggle up with a pillow. Scan a map or photo and print the image on transfer paper, available at office supply stores. Iron the image onto fabric. To save time, take the image to a copy center to have it copied onto the fabric for you. Sew your own pillow or attach the fabric to a small ready-made accent pillow.

CHARMING DISPLAY Display vacation or travel snapshots memory-book-style on an accordion-fold card, available at paper stores. Use gummed photo corners to attach photos. Decorate the front of the card with a sand dollar and prop it up with flowers or shells.

INCREDIBLE VOYAGE Highlight your vacation with a bulletin board that serves as a scrapbook and tour guide. Cover the bulletin board frame with sand-color paint. Cut a map to fit the corkboard and use decoupage medium to adhere it. Create travel-inspired pushpins by gluing shells, miniature compasses, or other mementos onto flat pins to show where you've been (and to display matchbooks, ticket stubs, and photos you saved along the way).

TABLETOP BEACH

To show off a shapely conch picked up on the beach, pour sand in a glass cylinder vase. Arrange the conch to call attention to its natural beauty. Stand the vase on its own or rest another shell or two against the base.
